SITUATION SUMMARY

Public health and medical (EF-8) Situation Report

Ebola Virus Disease, 2014

Date of report: October 15, 2014

Operational period: October 13 - October 17, 2014

There are currently no suspected or confirmed cases of the Ebola Virus Disease (EVD) in California. A patient in Los Angeles County was confirmed negative for EVD, on October 9, and is being monitored until October 30 as a precaution. At present, the weekly situational assessment for the risk of Ebola infection in California is very low.

The outbreak of EVD in the West African nations of Guinea, Sierra Leone, and Liberia continues to expand but does not pose a significant risk to the United States. As of October 12, the World Health Organization has reported a cumulative total of 8997 suspect, probable, and confirmed cases and 4493 deaths. Based on the current situation in West Africa, the Centers for Disease Control and Prevention (CDC) consider the risk of importation of multiple cases of EVD into the United States to be very low. However, the outbreak is evolving, and this assessment may change.

A patient with confirmed EVD, diagnosed on September 30, in Dallas, Texas died on October 8. This was the first travel-related case detected outside of West Africa's outbreak region. One of the nurses that cared for the patient was diagnosed with EVD in Dallas, Texas on October 12, and is being treated. A second nurse that cared for the original patient in Dallas, Texas had confirmed EVD on October 15, and is being treated at Emory University Hospital in Atlanta, Georgia.

The CDC, California Department of Public Health (CDPH), and Emergency Medical Services Authority (EMSA) continue to prepare for the potentiality that a traveler returning to California from West Africa may be infected with EVD. These persons may develop illnesses and require medical evaluation. CDPH and local health jurisdictions are monitoring the situation closely and taking steps to keep the public safe.

CDPH continues to work with the healthcare community and local health jurisdictions to identify potential suspect cases and avoid spread of the disease. New guidelines and updated guidelines released by CDC are posted on the CDPH Communicable Diseases Emergency Response (CDER) website available at: (<http://cdph.ca.gov/programs/cder/Pages/Ebola.aspx>). Likewise, EMSA has developed guidelines for Emergency Medical Services (EMS) personnel based on the recommendations of CDC. The guidelines have been distributed to Local Emergency Management Services Agency (LEMSA) Administrators, LEMSAs Medical Directors and the Regional Disaster Medical Health Coordination (RDMHC) Program. Revisions will be made as necessary. The document is posted on EMSA's website at http://www.emsa.ca.gov/ebola_control.

CDPH continues to direct healthcare providers to follow protocols established by the CDC about how to detect and isolate patients who may have EVD and how they can protect themselves from infection. The CDC advises that healthcare providers in the U.S. should consider an EVD infection in the differential diagnosis of febrile illness, with compatible symptoms, in any person with recent (within 21 days) travel history in the affected West African nations. The CDC advises people returning from the affected areas who may be at high risk for EVD should be promptly isolated and their blood sent to CDC for testing.

SITUATION SUMMARY

NORTHERN CALIFORNIA FIRES

Happy Camp Complex, Vegetation Fire, Siskiyou County

Happy Camp District, Klamath National Forest

FRA

Per Cal Fire, Cal OES Duty Officers, and ICS-209 as of [10/15/14 at 1805 hours](#):

- 134,056 acres, 97% contained
- Type 3 IC
- Expected Containment: 10/31/14
- Damaged Structures: 2 Other Minor Structures
- Destroyed Structures: 2 Single Residences, 4 Other Minor Structures

Great California Shakeout ([NEW/FINAL](#))

The Great California Shakeout is taking place today, Thursday, October 16 at 1016 hours. The Great ShakeOut Earthquake Drills are an annual opportunity for people in homes, schools, and organizations to practice what to do during earthquakes, and to improve preparedness. This event which began in 2008, now has international participation.

SITUATION SUMMARY

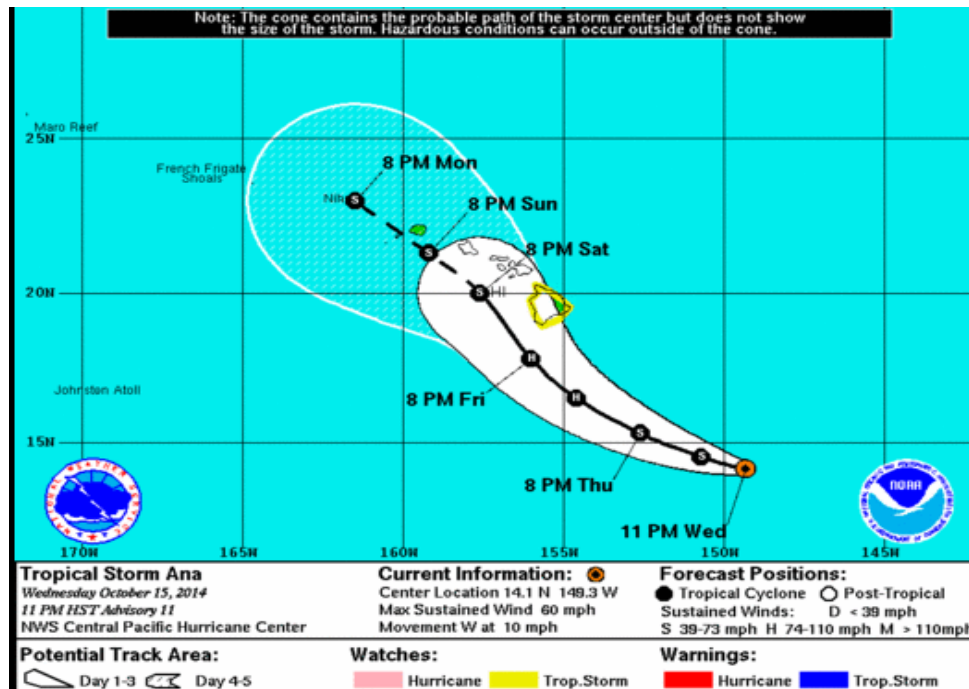

Tropical Storm ANA

Location: 530 miles east south east of Hilo, Hawaii
740 miles east southeast of Honolulu, Hawaii

Movement: West at 10 mph

Discussion: Ana is continuing on a track towards the Hawaiian island chain and is expected to impact the State of Hawaii beginning Friday, October 16. The storm is showing signs of possible weakening after Friday, but these models may change over the next several hours.

Impact: A Hurricane Warning has been issued for the outer waters of the Hawaiian Islands. A Tropical Storm Watch has been issued for the Big Island of Hawaii as the storm continues to track towards the island. A Hurricane Watch may be issued for portions of the Hawaiian Islands in the next 24 hours.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Weak ridging will result in dry weather and slightly warmer temperatures across northwestern California today. An approaching front will bring gusty southerly winds tonight and rain on Friday. Saturday and Sunday will be warm and dry before another front brings rain early next week.

San Francisco Weather:

Dry weather is forecast for today ahead of a weak storm system arriving Friday. As the storm exits Saturday morning the balance of the weekend is set to stay dry ahead of another chance of rain early next week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Highs in the 70s with a chance of rain are expected late Friday and Saturday and again early next week. This system should be similar in strength to the recent system.

Hanford Weather:

Partly to mostly cloudy skies expected for next few days as a series of weak upper level disturbance brush through the area. There is a slight chance of showers over the Foothill areas tonight. Temperatures will remain near normal for next several days.

WEATHER

WEATHER SYNOPSIS BY REGION:

Los Angeles Weather:

Onshore flow will bring slightly below normal temperatures and overnight low clouds through Saturday. A weak cold front may bring a stray shower or two to the central coast on Friday night and Saturday morning. A brief warmup is expected on Sunday, but then cooler and cloudier conditions are expected Monday and Tuesday. On Wednesday and through the second half of next week, offshore flow will bring warmer and drier conditions.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Temperatures will be at or slightly below average through Tuesday as several weak low pressure systems move across Southern California. This pattern will keep the marine layer active and fairly deep west of the mountains. An upper level ridge building over the southwest late next week will bring warmer days and a shallower marine layer.

Southeast California Weather:

Quiet weather through the remainder of the workweek with only periodic high cloud cover expected. Another trough may bring breezy conditions and light showers early next week.

SITUATION SUMMARY

Week-Ahead Weather: Key Points

Week Ahead Weather

Thursday-Sunday

- No significant hazards expected

Monday-Wednesday

- Rain and gusty winds northern half of the state
- Large waves and surf north of San Francisco

RECOVERY ACTIVITIES

Boles Incident Vegetation Fire- City of Weed, Siskiyou County

Recovery Activities

- On 10/01/14, the U.S. Small Business Administration (SBA) approved a disaster declaration making SBA assistance available in the primary County of Siskiyou and the contiguous counties of Del Norte, Humboldt, Modoc, Shasta, and Trinity, making low-interest federal disaster loans available to homeowners, renters, businesses of all sizes and private nonprofit organizations whose property was damaged or destroyed by the Boles Fire. In addition, a Disaster Loan Outreach Center opened Wednesday, 10/01/14, at 1200 hours, located at the College of the Siskiyou's Life Science Building 3, Room LS-1, 800 College Avenue, Weed, California 96094, Mondays – Fridays, 0900 – 1800 hours (Closed 10/13/14 for Columbus Day). Notification letters have been distributed.
- On 10/06/14, the Governor issued Executive Order (EO) B-27-14, which provides CDAA, and debris removal assistance, including the suspension of rules and regulations impacting debris removal. The EO also provides the ability for nonprofit organizations to seek reimbursement for extraordinary activities through the State Private Nonprofit Organizations Assistance Program.
- Non-food items have transitioned from the Salvation Army to a collaboration of four non-profit agencies that will be involved in the distribution of items such as baby clothes, diapers, clothing, etc.
- The Cal OES VAL continues to coordinate and participate in Long Term Recovery Group (LTRG) meetings with NGO, Faith Based, and local agencies. Shasta Community Foundation was identified as a fiscal agent for the group. Individuals needing assistance should be directed to the Family & Community Resource Center of Weed located at 260 Main Street, Weed. Funding organizations will assist with unmet needs through the case management process. The VAL will continue to provide guidance to the LTRG group.
- The College of the Siskiyou's website contains a Fire Resource List of various local agencies offering goods and services. The document can be found at <http://www.siskiyous.edu/humanresources/documents/fireresourcelist.pdf>.
- Food donations are being accepted at 310 Boles Street.
- Due to the high levels of asbestos found in the destroyed library, the Siskiyou County Health Officer, US/EPA, and CalRecycle recommend the temporary relocation of families living in the undamaged homes directly adjacent to the library. However, the City is temporarily sheltering (less than 30 days) one family displaced by the debris removal activities at the library location.

RECOVERY ACTIVITIES

Boles Incident Vegetation Fire- City of Weed, Siskiyou County

Cal Recycle reports:

Air monitoring activities continue in the work area and surrounding community.

5,706.96 total tons of debris have been removed as of day 12 of operations (86.41 tons of metal delivered for recycling; 1,970.51 tons of concrete delivered for recycling; and 3,650.04 tons of debris, ash and soil delivered for disposal)

The Numbers as of Day 10

- 131 Sites registered for the removal project (Right-of-Entry, includes library, community center and 2 churches).
- 11 Sites denied entry.
- 101 Sites documented.
- 129 Asbestos surveys completed.
- 56 Sites with asbestos containing material.
- 40 Sites cleared of asbestos containing material.
- 31 Debris removal completed.
- 0 Sites sampled.
- 0 Sample results approved.
- 0 Erosion control completed.
- 0 Approved by City of Weed as ready for a building permit.

Cal OES Deployments

- Two (2) Cal OES Recovery staff are assigned.

RECOVERY ACTIVITIES

Magnitude 6.0 Earthquake, American Canyon, Napa County

Recovery Activities

- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/08/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County IA PDA teams conducted additional PDAs 09/17/14 through 09/19/14 finalizing PDAs in Napa County. The Presidential Declaration request letter along with supplement information was forwarded to FEMA for consideration.
- The deadline for potential applicants to submit the Request for Public Assistance to be considered for reimbursement for this event is 10/24/14. Fifty-four (54) RPAs have been received to date. **Nineteen (19)** kick off meetings have been completed and **six (6)** kick-off meetings have been scheduled for this week and next week.
- The Napa Long Term Recovery Committee (LTRC) is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement. A follow up meeting is pending.
- Cal OES IA Voluntary Agency Liaison (VAL) continues NGO coordination in Solano County. Due to the absence of local faith based and other organizations that may have resources, Solano VOAD will reach out to expand the engagement of additional nonprofit and faith based partners. Once the organizations are identified, a follow up meeting will be held in hopes of identifying key leaders interested in forming a LTR committee.
- Local Assistance Center (LAC): County and City of Napa: LAC opened on 09/08/14 at 301 1st Street, Napa (corner of 1st Street and Silverado Trail). The LAC is open until further notice.
- A joint area field office located at the McKinley Building, 180 California Drive, Veterans Home of California, Yountville, 94599 opened 10/03/2014.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency Monday through Friday, from 0800-1700 hours.
- The Inland REOC is activated at Level 2 Monday through Friday, from 0800-1700 hours, or as needed.
- The Southern REOC is activated at Level 1 Monday through Friday, from 0800-1700 hours.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday through Friday, from 0800-1700 hours.
- The Governor issued an Executive Order on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought. Specifically, through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Recovery will be participating at the Southern Region MARAC meeting in Temecula on 10/23/14, to discuss Governor's EO on the drought.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
